# NATURE OF BUSINESS

Our products and services include the manufacturing, supply and application of:

- Various grades of hot mix asphalt including Ultra-Thin Friction Course (UTFC)
- ETB (Emulsion Treated Base)
- Modified bituminous bases
- Bitumen prime coats
- Bitumen emulsions

## PLANT & EQUIPMENT

To provide a one stop service, our Company owns an extensive fleet of plant and equipment. This includes asphalt mixing plants, pavers, shuttle buggys, rollers, chip spreaders, bitumen distributors, milling machines, recyclers and mechanical brooms.

Our static asphalt plants are situated in Polokwane in the Limpopo Province and Hazyview in the Mpumalanga Province with another two mobile asphalt plants being available for remote sites.

By following a strict plant replacement program ensures we keep our fleet modern. Maintaining our equipment to a high standard as well as having skilled experienced drivers and operators ensures quality workmanship and productivity.

# MANAGEMENT TEAM

Talent identification has always been and continues to be a very important aspect of Polokwane Surfacing's recruitment strategy.

Our Management Development Programme was launched with the aim of developing our management in various aspects of construction management.

As the Company has expanded, more opportunities have arisen, creating the ideal opportunity for individuals to grow with the group. This is an ongoing process and will continue to be mutually beneficial to the Company and staff.

Polokwane Surfacing has been pro-active in developing entrepreneurs in the Civil Engineering field.

In 1995 Polokwane Surfacing (Pty) Ltd was formed and the majority shareholding was taken up by black employees.

Black staff members with particular skills were identified and mentored to become independent contractors. With this mentoring, administrative assistance and financial support, these contractors are currently running successful businesses and offer their services to the industry at large.
